Benefits of Using Mini Books:

1. **They're printable, so your students can highlight or color on them.** Students can highlight the sight word on every page and color the book when they're done reading!
2. **They're in print-friendly format.** You can print them single-sided or double-sided.
3. **They are designed to save paper.** They are designed to print four books per set!
4. **They are cost-effective.** You will be able to reuse this pack year after year! Just print what you need again and again!
5. **They are high-quality and student-friendly.** (I use high-quality graphics and student-friendly fonts!)
